

Rural Crossbuck Kit Instructions

Kit includes sufficient material to assemble four HO scale non-operating crossbucks. For each crossbuck, follow the steps below:

1. Peel backing from crossbuck lettering sheet.
2. Carefully center styrene strip behind "CROSSING" lettering and press together..
3. Cut along edges of styrene strip to trim away excess paper.
4. Cut styrene strip to proper length by trimming just inside vertical black lines.
5. Repeat steps 2 - 4 with "RAIL ROAD" lettering.
6. Glue "CROSSING" and "RAIL ROAD" strips together at 90 degree angle to form crossbuck.
7. Paint and weather wooden pole as desired.
8. Glue crossbuck to pole at desired height.
9. Repeat steps 2 - 8 for remaining crossbucks.
